Reflection Questions:

1. I choose the topic Baseball for my website because it is just only a game but it also builds a brotherhood for each player. Since I was a kid im a fan of baseball. Then,when i was in elementary school I joined and play baseball. That's why that game is special to me.
2. For me, all the tags are useful, since I have no background in coding. I was amazed while doing the website.
3. .CSs will improve my website in terms of design like background color and font style.
